

CHARTER FUNDING CALCULATION FOR SPECIAL EDUCATION STUDENTS

STEP 1: Take a school district's budgeted expenditures for special education and **SUBTRACT** the school district's expenditure of

federal special education funding
state funding for early intervention services

STEP 2: MULTIPLY BY **16%** of the school districts average daily membership

16% is used because it represents the average percentage of students in PA who require special education.

STEP 3: ADD to the school district's tuition rate for non-special education students.

EQUALS The school district's charter school tuition rate for special education students
